Mark French is a working Montanan like you. He is not running for Congress for the personal benefits. He sees government going in the wrong direction, and has chosen service to bring Montana and the Nation back to a liberty concept, apart from party politics. Listed below are some of the irresponsible, unconstitutional and socialist issues the current 5 term incumbent has supported:

- Cash for Clunkers
- Patriot Act and FISA: Warrant-less wire tapping
- Socialized medicine: Medicare B, CHIPS
- REAL ID
- Bush Stimulus
- Against getting out of the UN
- COPS Funding: further federalizing the police system
- Supplemental appropriation for undeclared war and flu "pandemic" preparation
- Many earmarks

In addition, the incumbent has demonstrated a lack of passion when voting correctly on issues like the increase of the debt limit. I will tell you this: When an issue as significant as increasing the debt limit comes before me, I will not simply vote a quiet "No." I will use every tool in my power to focus the people and stop such disgusting action! The current Tester Wilderness Bill is another example of this lack of passion for what's right.

Below are additional issues I am passionate about:

- Significantly smaller Federal Government.
- Balanced budgets.
- Term limits.
- Strong defense.
- Removal of direct taxes like: income and inheritance taxes.
- No plunder of one group to give to another, rewarding irresponsibility.
- Market forces and personal responsibility.
- No trading freedom and liberty for "safety."
- American sovereignty.
- Single issue bills to avoid hiding items (earmarks) in essential bills.
- Withdraw from the United Nations. No Cap & Trade.

If you like what you see in this "we the people" movement, use your electronic tools to give your friends a real choice in this June 8th primary. It's up to you to spread this message. Truth and passion can overcome incumbent money.

Paid for by Mark French for Congress • P.O. Box 96, Paradise, MT 59856
